If the Applicant has not specified that his/her Shares be deposited to his/her 'locked' balance, please note that the said Shares would be deposited to the Applicant's 'trading' balance. In order to preserve the confidentiality of shareholder information and to ensure that securities are not made available for trading for those shareholders who do not want to trade the securities, the CDS would provide a mechanism where securities can be "locked" in the CDS account. The CDS would maintain two balances for each CDS account, namely a trading balance and a locked balance. The trading balance would be visible to the CDS participant and all dealings and trading would be permitted on the said trading balance, as done presently. The locked balance will not be visible to the CDS participant and all dealings on such locked balance would be suspended thereby maintaining the confidentiality of the information and also safeguarding the account holder from an unauthorized sale by a broker.
